Independent Living

For senior adults looking to maintain an active lifestyle without the hassle of home maintenance, Parkway Place offers one and two-bedroom apartment homes with just the right amount of quiet privacy and social activity. Here, you have the option to choose whatever lifestyle suits you.

Each of our private residences gives you easy access to community amenities, programs and activities. Whether you prefer to spend the morning hitting the gym, hanging out in the bistro with friends, swimming some laps, or reading a book in the library, we've got a place that's sure to suit you.

Assisted Living

For senior adults who may need additional assistance or support with daily activities, Parkway Place provides private one-bedroom suites with access to all the activities, services and amenities that our community has to offer.

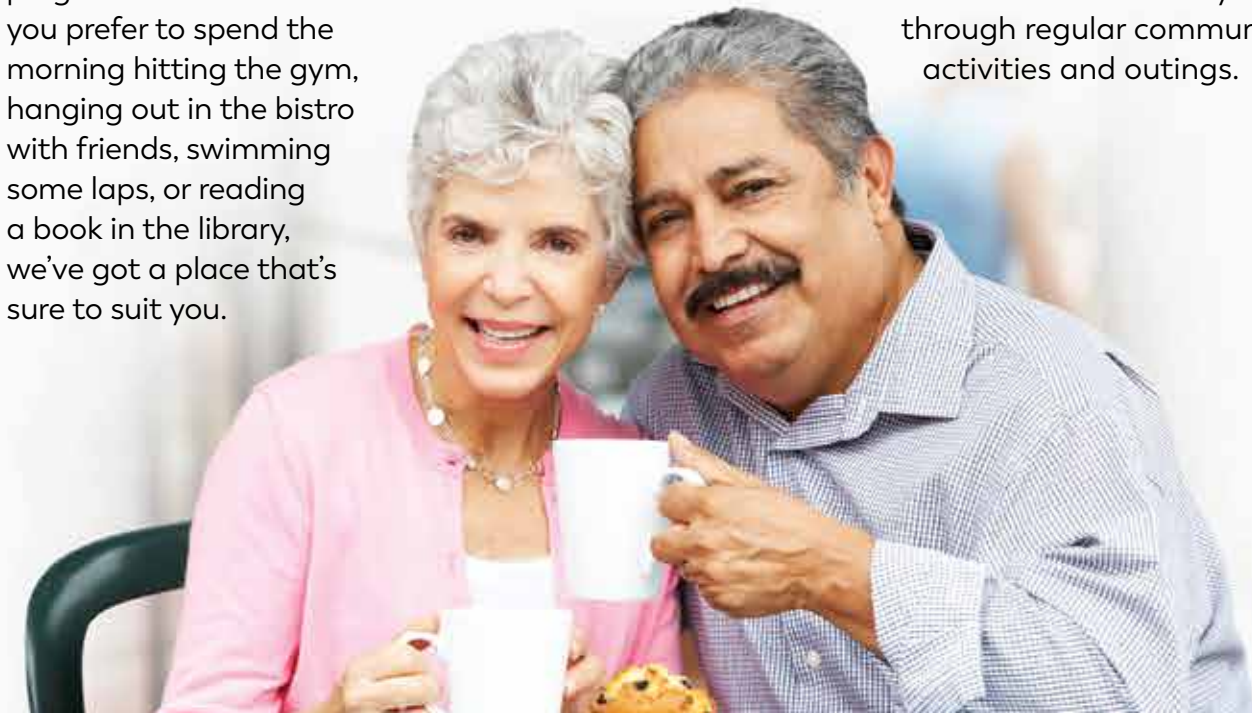

As an assisted living resident, you will have the peace of mind that your needs will always be met – whether that be medication management, outpatient therapy, or help with daily activities. Most assisted living residents maintain an active lifestyle through regular community activities and outings.

Memory Care

When memory impairment becomes a concern for daily living, Parkway Place provides compassionate support at The Harbor, our certified memory care community. This home-like environment offers private suites and access to community amenities – all in a safe and secure setting. Associates and care professionals provide services for varying levels of cognition – including Alzheimer's and dementia – using a holistic, faith-based approach that encourages residents to connect with their past and enjoy the present.

Skilled and Long-Term Nursing

When a loved one's care requires around-the-clock nursing supervision, Parkway Place provides a personalized, compassionate care approach. Our dedicated staff provide services to meet long-term nursing and short-term rehab needs, such as those of post-surgery or injury. Associates and care professionals work with each resident and their loved ones to create an effective, thorough treatment process.
