

Help for *single parents*

Buckner Family Pathways® provides single moms with safe, affordable housing, resources, counseling, and more — so you can be fully present at school and home while you pursue your education.

In Texas, single mothers with a college degree **earn more** over the course of their lifetime than their peers without a degree.*

You don't have to do it *alone*

Family Pathways helps develop strong, successful, and self-sufficient families who overcome cycles of poverty and grow positive generational habits.
